

## Footpath Report 19<sup>th</sup> May 2025

### SCC Upgrade

As you are all aware, the GUC queried the laying of the compound at the entry to the Charity Meadow with the footpath adjacent to the school. I had written to Julie Bell, the GUC Chair to explain and followed up with a chat at the Book Sale.

I have since inspected the area and although it has extended a bit further than I had thought, I didn't feel that it was a big issue. It does look a bit loose, but hopefully in time, this will settle.

The GUC were going to discuss this at their meeting last Friday, I have not heard the outcome, not sure of their feedback.

I have emailed James Pickering the SCC PROW Manager to update him of the possible issue. I have attached some photos of the entrance to the Charity Meadow.

### Footpath Conditions

I reported at the last meeting that two trees had fallen and partially blocked the FP 54. I can confirm that I have now had a reply from SCC to inform me that the trees will be cut to remove the hazard.

### Footpath Cutting

As Richard Adams has confirmed that he has Public Liability Insurance, he will be able to make a start on the cutting.

### FP Posts/Signs

The list is still outstanding. I have requested a couple of waymarkers that I can install where necessary, so awaiting delivery.
